EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert Bodi, reg. no. 48,540 on 6 April 2006.

The application has been amended as follows:

In the claims:

Claims 1 through 6, 20 and 21 are amended as follows:

1. (currently amended) Method for adjusting a hearing device in which one of several hearing programs can be selected, the method comprising the steps of:
 - identifying a momentary acoustic surround situation; ~~and~~
 - ~~arranging~~ determining a suitability measure for each of the selectable hearing programs according to the identified momentary acoustic surround situation; and
 - assigning a priority to each of the selectable hearing programs according to its suitability measure.
2. (cancelled)

3. (currently amended) Method of ~~claim 2~~ claim 1 further comprising the step of automatically selecting the hearing program with the highest suitability measure to operate the hearing device.

4. (currently amended) Method of ~~claim 2~~ claim 1 further comprising the step of selecting the hearing program with the highest suitability measure after an activation signal has been received.

5. (currently amended) Method of claim 3 further comprising the step of selecting a hearing program with ~~a lower~~ the next highest suitability measure to the currently selected program upon receiving an activation signal provided that such a hearing program exists.

6. (currently amended) Method of claim 4 further comprising the step of selecting a hearing program with ~~a lower~~ the next highest suitability measure to the currently selected program upon receiving an activation signal provided that such a hearing program exists.

20. (currently amended) Method of one of the claims 17 to 19 further comprising the step of treating a hearing program with optimal parameters for the further input source as having the second best suitability measure.

21. (currently amended) Hearing device system with a hearing device in which the method of one of the ~~claims 1 to 4~~ claims 1, 3 or 4 is ~~operate-able~~ implemented.

Drawings

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 1 requires descriptive legends for blocks that are identified only by reference characters. 37 CFR 1.84 (o) states: "Suitable descriptive legends ... may be required by the examiner where necessary for understanding of the drawing." Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Regarding Claim 1, US Patent 4,425,481 to Mansgold et al. discloses a hearing aid (Fig. 2) that selects a signal process best suited to particular sound environment (i.e., in which one of several hearing programs can be selected) (column 2, lines 15-18) by: identifying a particular listening situation (i.e., a momentary acoustic surround situation) (column 5, lines 15-22); and transferring data representing the most suitable signal process for the situation into an active register. As such, Mansgold discloses making a determination for each signal process as to whether it is the most suitable or not the most suitable. This constitutes determining a suitability measure for each of the selectable hearing programs. However, Mansgold does not disclose assigning a priority to each of the selectable hearing programs according to its suitability measure. Rather, Mansgold discloses either automatic direct access to the most suitable signal process or manual scrolling through the available processes in a fixed arbitrary order (column 4, lines 33-68). There is no teaching or suggestion in the prior art to modify the hearing aid

disclosed in Mansgold to assign a priority to each of the selectable hearing programs according to its suitability measure. As such, Claim 1 is allowable.

3. The remaining claims are allowable due to dependence from Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Swerdlow whose telephone number is 571-272-7531. The examiner can normally be reached on Monday through Friday between 7:30 AM and 5:00 PM.
